DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

The Jack-Eder house c. 1860 is a 2½ story three bay by one room center hall frame house on Dr. Jack Road just west of the intersection with Liberty Grove Road. The house faces south with the main gable running east/west.

The main front block has a rear two story two bay by one room frame kitchen wing that is perpendicular to the main house. The house rests on a fieldstone foundation and is totally covered with aluminum siding over narrow weatherboard. The ~~steeply~~ ^{medium} pitched roof is covered with composition tile shingle.

The main (south) elevation is symmetrically arranged with a central entrance and corresponding 2/2 sash windows on both the first and second floors. A four panel front door has a four light transom and two light sidelights with a panel below. The roof has a central cross gable with a 2/2 sash attic window. A three bay shed roof front porch covers the front and is supported by turned support posts.

The east and west gable ends have two 2/2 sash on each floor and a single 2/2 attic light. Three pane basement windows illuminate the cellar space.

The rear kitchen wing is similarly detailed with shed additions off each side.

The interior was not seen but not particularly important due to its expected design.

Only one significant outbuilding remains which is a two story one bay by one bay fieldstone meathouse and dairy. Two separate levels provide for both. The first floor has remnants of white-wash while the second level and rafters are charred from the process. Small openings are found on either side for the first floor and a door opening in the gable end. The medium sloped slate roof has a boxed cornice and plain barge boards.

STATEMENT OF SIGNIFICANCE

The main house is a typical form for the County and it retains its basic appearance. The owner in 1877 was William G. Jack.

The stone meathouse and dairy is a more unusual structure, but with the availability of stone it is not unexpected.
